PROFESSIONAL EXPERIENCE

Odoo Administrator

Pharma France | October 2025 – Present | Antananarivo, Madagascar

- Administered the Odoo environment, including users, roles and access rights.
- Configured and optimized Sales, Purchase, Inventory, Accounting, Website, eCommerce and POS modules.
- Managed data import, export and validation.
- Configured workflows and performed functional testing before production releases.
- Provided functional support and trained new users.
- Coordinated with developers on functional enhancements and contributed to continuous business process improvement.

Odoo Business Analyst

eTech Consulting | January 2025 – March 2025 | Antananarivo, Madagascar

- Analyzed business requirements and prepared functional specifications.
- Configured Odoo applications using Odoo Studio according to business needs.
- Collaborated with developers on functional requirements and specific customizations.
- Performed functional testing and validation of deliverables.
- Conducted user training and provided functional support.
- Participated in Agile/Scrum meetings and project coordination.

Odoo Functional Consultant

Index Consulting | September 2021 – December 2024 | Antananarivo, Madagascar

- Conducted business requirements workshops and supported clients throughout their ERP projects.
- Configured Odoo modules and participated in local Odoo deployments and implementations.
- Prepared and migrated data, performed functional testing and supported production releases.
- Delivered Odoo demonstrations, user training sessions and post-deployment functional support.
- Prepared functional documentation, user guides and requirements documentation.
- Coordinated with developers on specific customizations, change requests and issue tracking, while participating in Agile/Scrum project coordination.
